# Dehydrated Products

## HS Code - 07122000

Dehydration has been practiced as one of the best ways to preserve food for future use. Currently, dehydration of onion / Garlic has become one of the on-going trends where all moisture is removed out of the onion / Garlic leaving it completely dry. Most important fact about dehydrated onion/ Garlic is that it does not require any refrigeration. Dehydrated onions/ Garlic also have medical use in healing wounds as an antiseptic.

It contains prostaglandin A, can reduce peripheral vascular resistance, reduce blood viscosity, can be used to lower blood pressure, refreshing, relieve stress, prevent colds. In addition, it can also remove oxygen free radicals in the body, enhance metabolism, anti-aging, and prevent osteoporosis. It is a healthy food suitable for the elderly.

Diseases like hepatitis, asthma, pneumonia, prostate treatment, cancer, bruising and bruising, strength and activity, reproductive power, mental illness, rheumatism, treatment of fractures and pain relief, cancer sores, and many diseases can be cure with the aid of dehydrated onion and Garlic.
